THE COLOUR BOOK

PAINTS / FINISHES / TEXTURES

WHAT'S YOUR FAVOURITE COLOUR?

Perhaps it's one that takes you back to the beginning in your childhood bedroom. Maybe it's a tone that sends you to the sea or a faraway land. For many, it's the shade that best reflects their personality. For others, it's the one that matches their mood on any given day. You might not have a favourite, choosing instead to embrace all that life's rich, varied palette has to offer.

Inside this book, we celebrate the close bond that life and colour share through paints, finishes and textures that will enrich your home with favourite colours old and new.

CASUAL DINING

Bring relaxation to the table with creamy hues and comforting features

Whether you have all the room in the world or are sharing it with the kitchen, your dining area should be welcoming in character. Here, we've created that with homely tones and soft textures, whose gentle nature is ideal for morning coffees, lazy lunches and family suppers. The best part about a neutral wall palette for your dining space is that it allows you to accessorise in many ways.

SOFT TOUCH

Base the style of your cushions on the look of your wall. This pulls the room together and ups its comfort factor.

COLOUR O'CLOCK

Your clock should match your wall. In this case, the brushed antique-style suits the texture's decorative splash.

“Informal dining is as much about the décor as it is about what's on the table”

FULL OF LIFE

Boost the vibrancy of a neutral space with a green table setting or counter display.

PLAY WITH PATTERNS

Patterned wallpaper makes a room wonderfully unique.
Here's how to style it with stunning impact

So that your room has balance, give its design features lead and supporting roles. In the display opposite, the wallpaper dominates with its intricate patterns, which are complemented by soft, gentle furnishings. The same idea works just as well the other way around: if your wall favours pastel patterns and hues, that's your cue to make bolder selections with your furniture and accents.

THE GOLDEN TOUCH

A sophisticated accent is a natural match for an elegant space. Gold finishes always look good alongside floral prints.

PRINTS CHARMING

Printed cushions and throws are beautiful ways to revive existing furniture and make it fit the patterned scheme.

FLOWER POWER

A pop of green breaks up the intensity of the room. We like to use flowers, especially if the setting is flooded with sunlight.

FIVE-STAR COMFORT

Little ways to bring the luxury of a hotel stay into your bedroom

The best hotel rooms are typically guided by the principle that less is more. In your bedroom at home, that means picking a theme and sticking with it. Once you've decided on your paints and wallpapers (in this case we've opted for coastal-inspired hues), focus on little things that make the room feel composed and cosy, whether it's your own or one for overnight guests.

NICE THROW

A bed can never have too many layers, especially when they enhance the look of the room.

READING ROOM

If you have a corner going spare, use it to create a nook for reading in a comfy chair.

POP STARS

If at any point in the decorating process you feel the theme take over, a few brightly coloured accents will make for a pleasing change.

TEXTURE TALK

A mix of textures (soft-touch rugs, well-worn wood, lush leather) add depth and character to your space.
